GADI ANILKUMAR

Full-Stack & AI Application Developer | B.Tech CSE (AIML)
anilkumargadi27@gmail.com | +91 9014516520 | Tirupati, Andhra Pradesh
LinkedIn | GitHub | LeetCode | HackerRank | Portfolio

PROFESSIONAL SUMMARY

Full-stack and AI application developer pursuing B.Tech in CSE (AI & ML) at Mohan Babu University (CGPA 8.90), with hands-on experience building web applications and multi-agent AI systems using the MERN stack, Next.js, LangGraph, and RAG pipelines. Completed an 8-week Infosys Springboard internship, integrating the Gemini API and delivering Dockerized, CI/CD-deployed applications. Solved 200+ DSA problems with strong CS fundamentals. Seeking an entry-level software role to apply my skills, contribute to impactful products, and keep growing as an engineer.

INTERNSHIP

Frontend Developer Intern (AI Integration) – Infosys Springboard Virtual Internship 7.0, Batch 1 — 8 Weeks
Project: Agentic AI Debate Coach & Presentation Analysis Platform | *Live Link*

- Built a 4-role (Learner, Coach, Educator, Admin) **single-page application** in vanilla **JavaScript** with client-side authentication and role-based route guarding.
- Integrated the **Google Gemini API** for a context-aware in-app chatbot, managing multi-turn history within token limits.
- Implemented live speech analysis with the **Web Speech API**, computing WPM, filler-word frequency, and grammar issues from real-time transcripts.
- Built **Chart.js** analytics dashboards and PDF/Excel report export (**jsPDF, SheetJS**); containerized with **Docker** and deployed via **GitHub Actions**.

PROJECTS

AgentHire – AI-Powered Recruitment Automation Platform | GitHub | Live Demo
Automates resume screening, shortlisting, and candidate communication for recruiters through a multi-agent AI workflow.
Tech Stack: Next.js, React, Express, MongoDB, LangGraph, LangChain, Qdrant, JWT, React Flow

- Built a full-stack recruitment platform where recruiters post jobs and candidates apply by uploading a PDF resume.
- Designed a **7-agent LangGraph/LangChain workflow** (resume parsing → embedding → matching → shortlisting → human approval → interview → email) with retry logic and resumable state persistence.
- Implemented a **RAG pipeline** using **Qdrant** and BAAI/bge-small-en-v1.5 embeddings to match candidates to required/preferred skills.
- Added **JWT** recruiter authentication, role-protected routes, and Resend-powered interview/rejection emails; built a **React Flow** dashboard visualizing live workflow states.

AI Venture Studio – Multi-Agent AI Startup Blueprint Platform | GitHub | Live Demo
Turns startup ideas into investor-ready blueprints through a sequential 11-agent AI workflow.
Tech Stack: React, Vite, Node.js, Express.js, MongoDB, Mongoose, JWT, Ollama, React Flow, Recharts

- Built a full-stack **MERN platform** running an **11-agent workflow** (market research, competitor analysis, PRD, architecture, financials, GTM, pitch deck), with JWT auth, bcryptjs hashing, and protected REST APIs.
- Designed a workflow engine with manual (approval-gated) and auto execution modes, integrating local LLM generation via **Ollama** with a deterministic fallback for reliability.
- Developed a **React Flow** workflow view, **Recharts** health-score analytics, and a boardroom module simulating executive debate with consensus.
- Added PDF/Markdown/JSON export, **Nodemailer** email delivery, and MongoDB report memory search with in-memory fallback.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL, TypeScript
Web Technologies: HTML, CSS, Bootstrap, Flexbox, Next.js
Concepts: OOPs, Operating Systems & CS Fundamentals, DBMS, Generative AI
Tools & Platforms: Git, GitHub, Linux

EDUCATION

Mohan Babu University (MBU), Tirupati, Andhra Pradesh — *2023 – 2027*
Bachelor of Technology (B.Tech) in Computer Science & Engineering (AI & ML) | **CGPA: 8.90**
NxtWave CCBP 4.0 Academy – Genius (Training Program) — *Nov 2024 – Nov 2027*

CERTIFICATIONS

- **Generative AI & Agents:** Principles of Generative AI – Infosys Springboard (Mar 2026); Career Essentials in Generative AI – Microsoft & LinkedIn Learning (Dec 2024); AI Agents Intensive Course with Google – Kaggle × Google (2025)
- **Web & Programming (NxtWave CCBP 4.0 Academy):** Build Your Own Static Website (Feb 2025); Build Your Own Responsive Website (Apr 2025); Introduction to Databases (SQL) (Sep 2026); Programming Foundations with Python (Sep 2026)

ACHIEVEMENTS

- Solved **200+ DSA problems** (LeetCode, HackerRank, NxtWave); **HackerRank 5-Star Coder** in Python and SQL.
- Cleared **NxtWave Placement:** Online Challenger (DSA, Frontend, SE Fundamentals); Offline Master (DSA, Frontend)
- **448-day learning streak** on NxtWave; Certificate of Achievement – XPM 4.0 Fundamentals, CCBP 4.0 Academy (2025).

LEADERSHIP & RESPONSIBILITIES

- **Data Club Coordinator**, Mohan Babu University – coordinated technical activities and sessions on data and AI.
- **NSS Volunteer**, Mohan Babu University – participated in community service and outreach initiatives.
